

Good Morning Campus Communities,

Welcome back to the spring semester! It is certainly not what any of us could have anticipated when the semester began back in January, but this is our “new normal”—at least for now.

I want to extend a huge thank you to all of our students for entrusting your education to us. I promise you that all of our Moraine Park faculty and employees have been working extremely hard to ensure the remainder of your spring semester provides you with valuable learning opportunities during these unprecedented times. Please remember, the [majority of our student services](#) are still available to you virtually, including counseling, tutoring and advising. I encourage you to review them and use them.

Until such time that social distancing guidelines are lifted, please take a moment to [view my message](#) to all of you.

Sincerely,

Bonnie
