

MORAINE
PARK
TECHNICAL COLLEGE

Driven to do.

2015 K-12 ANNUAL REPORT

2015 MPTC Teacher Professional Development

DEAR FELLOW EDUCATORS

At Moraine Park Technical College, collaborative partnerships with K-12 education and other stakeholders' have been a staple in our long-standing success of Career Prep and secondary education initiatives. We continue to refine dual credit options creating career pathways for students that lead to a degree from Moraine Park. As teacher certification requirements change, the College is prepared to offer professional development opportunities for career prep teachers that will not only enhance their ability to create an authentic college learning experience for students, but also provide them the tools and resources to become advocates of Moraine Park.

During the 2014-15 school year, MPTC added two new events geared at students who had earned dual credit while in high school. Parent Night, offered 1st and 2nd semester, provided dual credit students and their parents the opportunity to learn how credits earned in high school can be applied to a program at the College. Senior Planning Day was structured to enable students to complete the entire admissions process and be ready to enroll for upcoming semester courses.

As Moraine Park plans for the future, Career Pathway development will be key to guiding students to develop college and career readiness skills. We look forward to enhancing current partnerships and implementing new initiatives to meet the needs of our future students and educators.

CAREER PREP 2014-15 ACCOMPLISHMENTS

Dual Credit

- 2,959 high school students were awarded 10,753 transcribed credits in 2014-15.
- 331 course sections offered at 24 high schools.

Career Pathways

- 15% of dual credit graduates enrolled at Moraine Park in 2014-15. This represents a 2% increase from 2013-14.
- 444 2014 high school graduates directly enrolled at Moraine Park in 2014-15. Of that number, 75% earned dual credit while in high school.
- Manufacturing Career Pathway in partnership with the Fond du Lac Area Association of Commerce's Project Grill program (NEW).

Collaboration

- Moraine Park offered and collaborated on many activities to Career Prep stakeholders, including Business, Industry, and Education Day; Career Prep Cluster Workshops; Counselor In-Service; and Career Pathway training opportunities.
- Approximately 300 local educators participated in Career Cluster awareness events.

Sincerely,

A handwritten signature in cursive script that reads "Jennifer Wagner".

Jennifer Wagner
Career Pathway Coordinator

K-12 PROFESSIONAL LEARNING ACTIVITIES

Moraine Park Career Prep Partnership Meetings

The Moraine Park Career Prep Consortium meets annually to share information relative to dual credit courses, changes to Moraine Park programs and the development of Career Pathways. A total of 20 of the 28 high school districts (public and private) attended the meeting. Meetings focus on:

- Developing Career Pathways that create seamless educational opportunities for students
- Current legislation affecting Career and Technical Education initiatives
- Networking opportunities with high school teachers and MPTC staff and faculty

Career Prep Cluster Focused Workshops

Workshops are designed for high school teachers and technical college instructors and deans to collaborate on the development of dual credit courses with a focus on curriculum shared resources, industry standards, student certification opportunities and professional growth. In 2014, 59 high school educators attended one of the offerings below:

- Welding
- Culinary Arts
- Business, Information Technology, and Marketing
- Automotive Technology
- Early Childhood Education and Health

Administrator Breakfast

The annual breakfast is an opportunity for K-12 administrators to dialogue with Moraine Park administration and create a vision of partnership opportunities for high schools. Moraine Park updates and other valuable information is presented, with a focus on new initiatives and collaborations that the College has established with area high schools and middle schools.

- 31 K-12 administrators
- 22 public and private schools represented
- 8th grade (TRI-COLLEGE) College Awareness Tours result of 2014 K-12 Administrator Breakfast discussions

Counselor In-Service

The Counselor In-Service brings high school and middle school counselors to Moraine Park to learn about program changes, participate in hands-on program presentations and network with colleagues. Our goal is to provide recommendations to school counselors to enhance student preparedness for post-secondary education. New this year was an optional tour of the Mercury Marine plant after the formal in-service concluded.

- 44 middle and high school counselors
- 2 program visits: Respiratory Therapy and Mechatronics

Business, Industry, and Education Day (BIE Day)

In November of 2014, Moraine Park, in partnership with the Fond du Lac Area Association of Commerce, Marian University, and UW Fond du Lac, sponsored BIE Day at the UW-Fond du Lac campus. The goal of BIE Day was to facilitate conversations among participants that establish new partnerships between business and education, provide high-quality training opportunities, and create an on-going network designed to prevent the significant decline of skilled workers in the Moraine Park district.

- 121 total attendees
- Business/Industry Tours
- Agenda topics included current local and state initiatives affecting partner school districts and examples of successful business and education partnerships

Professional Development Workshops

As Moraine Park continues to grow partnerships with district high schools, processes need to be implemented and maintained to ensure that dual credit courses include the same level of up-to-date relevant occupational information and rigor as those taught by college faculty. Although secondary teachers who instruct dual credit programs are provided with current materials and updates, providing professional development in the form of on-site updates with MPTC faculty is a best practice method for maintaining alignment. Professional development for dual credit high school teachers was offered in June of 2015 in Welding, Culinary Arts, Graphic Communications, and Early Childhood Education workshops.

- 35 high school dual credit teachers attended workshops
- 7 high school teachers earned an industry recognized certification in welding
- Workshop hours applied to continuing education credits/hours for K-12 license renewal

COURSE OPTIONS/YOUTH OPTIONS

Course Options, enacted in 2013 by the Wisconsin Legislature, allows any student who is 16 years of age or older, enrolled in a public school district to attend up to two courses at a time at Moraine Park Technical College. The student's resident school district will pay 50% of the college tuition for the course and 100% of any additional fees and/or book costs, while the college pays the remaining 50% of tuition. This new program is similar to Youth Options, but is not as restrictive and allows for year-round enrollment in courses. Courses must meet high school graduation requirements and be part of a student's Academic and Career Plan.

The **Youth Options** program is an opportunity for students in 11th and 12th grade and currently enrolled in a Wisconsin public high school to attend a Wisconsin college for the purpose of taking one or more courses for high school and college credit. Students must be in good academic standing for the school board to approve youth options, as well as other requirements. Students apply directly to their high school for approval to the Youth Options program. The school district will pay 100% of the tuition costs and non-consumable course materials. Students who are not successful in Youth Option courses may need to reimburse school districts for the course and book fees.

Both programs enable high school students to enroll in regular occupational/technical courses and/or general education courses. Course Options also allows students to take non-degree courses. Technical college remedial programs and courses are not eligible options under these programs.

COURSE OPTIONS and YOUTH OPTIONS ENROLLMENTS 2015

Credit Type	Student Headcount	Total Credits
Course Options	23	73
Youth Options	154	520
TOTAL	177	593

** 117 of the 177 total students enrolled in Nursing Assistant.

TRANSCRIPTED CREDIT

Transcribed credit provides high school students the opportunity to earn college credit while in high school. Transcribed credit courses are Moraine Park courses taught in the high school using technical college curriculum, grading policies and textbooks. The courses are taught by a certified high school instructor. These credits are transferable to all schools within the Wisconsin Technical College System and may also transfer to four-year colleges.

2014-2015 TRANSCRIPTED CREDIT COMPLETION TOTALS

Moraine Park district high school students earned over \$1.4 million worth of transcribed credit in 2014-2015.

K-12 STUDENT OUTREACH ACTIVITIES

College Preview Days (Grades 11-12)

College Preview Days is an annual activity held in November offered to high school junior and senior students to explore postsecondary options available at Moraine Park. Students select two programs to visit, experience classrooms and labs, speak with instructors and learn about college options available after high school graduation.

- 169 11th and 12th grade students attended
- 53 sessions offered by MPTC faculty

Career Showcase (Grades 9-12 & Adults)

Career Showcase, held in October, offers high school students and their parents a preview of many different careers. Prospective students learn about the many programs the College has to offer through hands-on activities and dialogue with college faculty and staff.

- 97 prospective students attended, 69 submitted an application to the College
- Application fee waiver provided for 12th graders who completed all admissions requirements within 6 weeks

Discover Moraine Park (Grades 11-12 & Adults)

Discover Moraine Park, a college exploration event taking place in February, commemorates Career and Technical Education Month each year. Students and their families visit with student services representatives, instructors and deans to “fast track” their admission and financial aid processes for the upcoming school year.

- 150 prospective students attended
- 108 submitted an application to the College

High School Visits

Recruitment Specialists, who are all Global Career Development Facilitator certified, visit high schools monthly to help students with career and college planning. They assist with connections to MPTC opportunities for students, matching college programs that fit career interests, college admissions, financial aid and scholarship information.

- 500 high school students met one-on-one with recruiters during the 2014-15 school year
- 507 total applications submitted to MPTC from 2015 high school graduates

ACCUPLACER Test Sessions (Grades 11-12)

During the 2014-15 academic year, Moraine Park Recruitment staff proctored ACCUPLACER college course placement sessions at district high schools.

- 194 11th and 12th grade students
- 8 high schools

Parent Night (NEW)

In 2014, MPTC added an evening event tailored to parents of high school students interested in attending a technical college after high school graduation. At this event, parents were provided detailed information on technical colleges, admissions, financial aid, and college programs.

- Emphasis on high school course choices and using dual credits toward a college degree
- 46 parents and prospective students attended in September of 2014 and March of 2015

Senior Planning Day (NEW)

Senior Planning Day was held in March of 2015. This event is targeted to those high school seniors who may not have started the college admissions process or are only a few steps away from being ready to register for classes. Students were able to complete all admissions requirements including the college application, take a placement test, apply for financial aid, meet with an academic advisor, and plan out their schedule for the upcoming school year.

- 27 students attended
- 25 students completed requirements and accepted to a program

College Exploration Day

In collaboration with Marian University and UW-Fond du Lac, MPTC offered college tours to 8th grade students in April of 2015. The goal is to expose 8th grade students to three different types of colleges by providing a short presentation and campus tour at each of the colleges.

- 13 middle schools attending
- 600 local 8th grade students

Tech Knowledge College

Tech Knowledge College is a 3-day summer activity for students entering grades 6 through 8. Students choose two career areas to explore that are interactive and hands-on. In 2015, 161 middle school students chose from 15 different session options.

Project Grill-Manufacturing Career Academy (NEW)

During the 2014-15 school year, MPTC offered a Manufacturing Career Academy in partnership with Project Grill. Project Grill partners local manufacturers together with area high school students on a year-long project to design and build a working charcoal grill from scratch. Students are exposed to up-to-the-minute technology, real-world deadlines and learn first-hand that careers in manufacturing are creative, challenging, and rewarding.

- 6 students completed courses in SolidWorks 3D Design, Manufacturing Processes, and Welding
- 8 college credits earned

2015 Tech Knowledge College

TRANSFER TO A FOUR-YEAR COLLEGE

Students who earn associate of applied science degree-level credits at Moraine Park can transfer to a four-year public or private college to earn a bachelor's degree. Visit the Moraine Park website for details on the many transfer agreements.

- Credits earned at Moraine Park must meet the requirements of the college where the students wish to transfer.
- Some colleges may accept the credits of an entire associate of applied science degree.
- Some colleges may accept technical diploma-level courses.
- Receiving colleges confirm which Moraine Park courses will transfer.

Transferring Resources

- Visit www.morainepark.edu/transfer
