

The AQIP Outcome Assessment team has completed the following:

1. Redrafted the "Program Assessment Plan Worksheet" which is being piloted by a few programs currently.
2. Completed a college philosophy statement regarding assessment.
3. Created a visual which supports the assessment process at MPTC.
4. Once all documents are finalized, the plan is to have all programs complete an updated "Program Assessment Plan Worksheet" by the end of this school year. This document will be revisited annually with results documented and analyzed to aid in continuous program improvement and student success.
