Vision: A college of choice for students and a strategic partner for business and industry.

Build a supportive culture to make us an employer of choice. The capacity of the college to implement Innovation 2020 will depend on highly skilled, committed and engaged instructors and staff. As an increasingly greater number of the college workforce retires, we will need to be able to recruit and retain top talent. In order to develop and maintain a positive culture and climate, effective leadership at all levels will be required.

Improve student success through innovative programming, delivery and services. To remain competitive and meet the rapidly changing needs of our diverse student population and employers, the college will need to adopt new methods, create new offerings, and offer new approaches to learning.

Mission: Preparing students for success in a diverse and globally connected world.

Strengthen our K-16 and community connections. The college prepares students not only for careers, but for the next level of higher education. This requires coordinated planning and communication with school districts and communities and expanded relationships with four-year colleges and universities to enable our students to seamlessly continue their educations.

Advance the efficient and effective use of technology. The college must have contemporary technology and labs and reliable, compatible and intuitive information technology systems to support learning, student services, and college processes.
