SECTION 1

Executive Summary
Section 1 – Executive Summary

Location
The Moraine Park Technical College District (MPTC) is located in the east-central portion of the state bordered by Fox Valley, Madison Area, Waukesha County, Milwaukee Area and Lakeshore Technical Colleges. The District includes all or portions of ten counties including Dodge, Fond du Lac, Green Lake and Washington. MPTC’s main campus is located in Fond du Lac and includes the district administrative building. MPTC also has branch campuses in Beaver Dam and West Bend with regional centers in Ripon and Jackson. There are additional instructional centers utilized throughout the district. All campus buildings are owned while center space is leased from various organizations.

Significant Projects
In 2015-16, as identified in the Master Facility Plan, $1,500,000 will be invested in the construction of a new recruitment and careers center. This addition will be attached directly to the student services area, with convenient access to the cafeteria and library.

The district outsources its bookstore operations and is planning to invest $300,000 in remodeling the current bookstore on the Fond du Lac campus.

In 2016-17 remodeling will take place on the Fond du Lac campus to provide offices and conference rooms for staff in the Information Technology (IT) department. Currently IT staff are located in two separate locations. The space will be conveniently located adjacent to the data center and will include new offices, conference rooms and workrooms. The district has budgeted $1,000,000 for this project which will include an HVAC upgrade.

The master facility planning process identified a need to remodel space in building A on the Fond du Lac campus. This space is adjacent to the proposed recruitment and career center to be built in 2015 – 16. The intent is to provide adequate space for the student success center and services.
Section 1 – Executive Summary – Cont.

Moraine Park intends to invest $1,000,000 in a keyless entry solution for all of the district buildings. This initiative will better protect the campus buildings from theft and vandalism, monitor access and provide a mechanism to secure buildings in an emergency situation. Staff are researching grant opportunities for funding this project.

In 2017–18 vacated space will be remodeled for Economic Work Force Development (EWD) and Organizational Development (OD). The budget for this Fond du Lac campus project is $1,300,000 which will provide much needed office space, computer labs, conference rooms and a shared workroom.

In addition, the district has set aside $400,000 to upgrade instructional space on the West Bend campus.

Planning
Moraine Park Technical College has a capital renewal and replacement program in place for major existing building systems and components. Requests for new or remodeled facilities are based on programming needs, building conditions, on-going maintenance costs and technology changes.

Staff is empowered to identify and request facility needs on an annual basis. Cross functional teams are formed for immediate and long term facility planning. Staff are asked to identify facility needs critical to their continued efforts in providing vocational, technical and training services.

A comprehensive seven year facility plan is developed annually which outlines capital project schedules and budgeting. Overall, the plan is a product of staff, student and community member input and provides a roadmap of future projects. Annually, the Executive Leadership Team provides updates to the plan in conjunction with architectural planning meetings to ensure it remains in line with the academic needs of the college. As a result of these planning sessions, the districts’ Master Facility Plan is established and maintained.

The District Board has instructed staff to minimize fluctuations in debt service requirements on future debt service payments. Normally, the district issues approximately $5,400,000 in debt annually for both capital projects and equipment. Payments are set on a decreasing repayment schedule with adherence to a five-year payback on equipment/software expenditures and a ten-year payback on capital projects.

Leased Facilities
Moraine Park currently has lease agreements in place with The Delaney Group, LLC in Jackson and the Ripon School District for regional center offices and instructional facilities.

Floor Plans
- Beaver Dam Campus
- District Office
- Fond du Lac Campus
- West Bend Campus
SECTION 3

Three-Year Project Summary
Section 3 – Three Year Project Summary

Based on Master Facility Plan findings and recommendations, building and remodeling projects are planned to most effectively meet acknowledged campus needs. In accordance with the plan and available resources, a number of projects have been identified and prioritized.

2015-16

Construction/Remodeling

The Master Facility Plan identifies the need to build a new recruitment and careers center. The facility will be located adjacent to the student services building and will serve as a main hub, connecting student service functions to the cafeteria, library, student life areas and other related departments. It will include a career center lab, office space, conference rooms, meeting rooms, an area for brochures and recruitment material and a computer lab for student success testing.

The college outsources the college bookstore operations. As part of the original agreement with the vendor the district has committed funds to upgrade the bookstore on the Fond du Lac campus. The existing bookstore is unorganized and does not provide sufficient space between aisles and displays to meet American Disability Act (ADA) standards. The sales counter also needs improvement and a space must be provided for a safe room.

Finally, there is a need to create a data center room on the Beaver Dam campus. The campus does not have a secured area with a fire suppression system for housing the critical computing systems.

Estimated budgets for these projects are as follows:

Fond du Lac
- Recruitment and careers center addition $1,500,000
- Bookstore remodeling 300,000

Beaver Dam
- Campus data center $65,000
Section 3 – Three Year Project Summary – Cont.

Capital Improvements
At this time, the sum of $535,000 has been projected for the following 2015-16 capital improvement projects:

Beaver Dam
- Weld Shop makeup air unit replacement $150,000
- Weld Shop air compressor replacement 25,000

Fond du Lac
- Building Automation System (BAS) Upgrade – Phase II $100,000

West Bend
- Update campus surveillance security system $175,000
- Upgrade parking lot L 85,000
MORAINE PARK TECHNICAL COLLEGE
FOND DU LAC CAMPUS 2015-2016
Section 3 – Three Year Project Summary – Cont.

2016-17

Construction/Remodeling
Space will also be remodeled for the Information Technology (IT) staff. Currently the IT staff is scattered in different office suites throughout the campus. The remodeled area will include office space to consolidate IT staff, along with meeting and work rooms. The space identified for this project is located adjacent to the college’s data center. IT staff will have direct access to the data center and will improve efficiencies on a daily basis. Having the entire IT staff in one location will also encourage team unity, open communication and constructive troubleshooting.

The district has also set aside dollars to remodel the A building on the Fond du Lac campus. This space is adjacent to the proposed recruitment and career center to be built in 2015 – 16. The intent is to provide adequate space for the creation of an Academic Success Center to include space for tutoring, student success classes, student testing and office space.

Estimated budgets for these projects are as follows:

Fond du Lac
- Remodel area for IT $1,000,000
- Remodel A building 1,300,000

Capital Improvements
At this time, the sum of $1,040,000 has been projected for the following 2016-17 capital improvement projects:

Fond du Lac
- Keyless Entry Solution $1,000,000
- C parking lot restoration 40,000
MORaine Park Technical CollEge
Fond Du Lac Campus – 2016 -2017
Section 3 – Three Year Project Summary – Cont.

2017 - 18

Construction/Remodeling
Extensive remodeling is proposed for the E building on the Fond du Lac campus to provide a new space for Economic Workforce Development (EWD) and Organizational Development (OD). Over the past several years various programs housed in the E building have either been discontinued or moved to other areas of the campus. The remodeled space will provide offices, conference rooms, shared computer labs and shared workrooms for both departments. This location will provide an identifiable entrance that is easily accessible to the college community.

In addition, the district has set aside dollars to continue classroom/lab rotational upgrades.

Estimated budgets for these projects are as follows:
- **Fond du Lac**
  - Remodel E building $1,300,000

- **West Bend**
  - Remodel instructional space $400,000

Capital Improvements
At this time, the sum of $675,000 has been projected for the following 2017-18 capital improvement projects:

- **Fond du Lac**
  - E building roof replacement $500,000
  - Parking lot lighting (LED) upgrade 150,000
  - C2 vestibule repair 25,000
WTCS Facility Inventory System
Room Use Codes

(Based upon Postsecondary Education Facilities Inventory and Classification Manual, U.S. Department of Education, November 1992)

100 – Classroom Facilities

General
This category aggregates classroom facilities as institution-wide resources, even though these areas may fall under different levels of organizational control. The term “classroom” includes not only general purpose classrooms, but also lecture halls, recitation rooms, seminar rooms, and other rooms used primarily for scheduled non-laboratory instruction.

110 Classroom
Definition: A room used for classes and that is also not tied to a specific subject or discipline by equipment in the room or the configuration of the room.

115 Classroom Service
Definition: A room that directly serves one or more classrooms as an extension of the activities in that room.

200 – Laboratory Facilities

General
A laboratory is a facility characterized by special purpose equipment or a specific room configuration which ties instructional or research activities to a particular discipline or a closely related group of disciplines.

210 Class Laboratory
Definition: A room used primarily for formally or regularly scheduled classes that require special purpose equipment or a specific room configuration for student participation, experimentation, observation, or practice.

215 Class Laboratory Service
Definition: A room that directly serves one or more class laboratories as an extension of the extension of the activities in those rooms.

220 Open Laboratory
Definition: A laboratory used primarily for individual or group instruction that is informally scheduled, unscheduled or open.

225 Open Laboratory Service
Definition: A room that directly serves one or more open laboratories as an extension of the activities in those rooms.
300 – Office Facilities

General
Office facilities are individual, multi-person, or workstation space specifically assigned to academic, administrative, and service functions or college or university.

310 Office
Definition: A room housing faculty, staff, or students working at one or more desks, tables or workstations.

315 Office Service
Definition: A room that directly serves an office or group of offices as an extension of the activities in those rooms.

350 Conference Room
Definition: A room serving an office complex and used primarily for staff meetings and departmental activities.

400 – Study Facilities

General
Study space is classified into three categories: study room, stack, and open-stack study.

410 Study Room
Definition: A room or area used by individuals to study at their convenience, which is not restricted to a particular subject or discipline by contained equipment.

420 Stack
Definition: A room used to house arranged collection of education materials for use as a study resource.

430 Open-Stack Study Room
Definition: A combination study room and stack, generally without physical boundaries between the stack and study areas.
500 – Special Use Facilities

General
This category includes several room uses categories that are sufficiently specialized in their primary activity or function to merit a unique room code.

520 Athletic or Physical Education
Definition: A room or area used by students, staff, or the public for athletics or physical education activities.

530 Media Production
Definition: A room used for the production or distribution of multimedia materials or signals.

540 Clinic
Definition: A room used for providing diagnosis, consultation, treatment or other services to patients.

600 – General Use of Facilities

General
General use facilities are characterized by a broader availability to faculty, students, staff, or the public than are Special Use Facilities (500 series), which are typically limited to a small group or special population.

610 Assembly
Definition: A room designated and equipped for the assembly of many persons for such events as dramatic, musical, devotional, livestock judging, or commencement activities.

620 Exhibition
Definition: A room or area used for exhibition of materials, works of art, artifacts, etc., and intended for general use by faculty, students, staff, and the public.

635 Food Facility
Definition: A room used for eating.

640 Day Care
Definition: A room used to provide day or night, child or elderly adult care as a nonmedical service to members of the institutional community.

650 Lounge
Definition: A room used for rest and relaxation that is not restricted to a specific group of people, unit or area.
660  Merchandising  
Definition: A room used to sell products or services.

670  Recreation  
Definition: A room used by students, staff or the public for recreational purposes.

680  Meeting Room  
Definition: A room that is used by the institution or the public for a variety of nonclassification meetings.

700 – Support Facilities

710  Central Computer or Telecommunications  
Definition: A room used as a computer based data processing or telecommunications center with applications that are broad enough to serve the overall administrative or academic primary equipment needs or a central group of users.

720  Shop  
Definition: A room used for the manufacture, repair, or maintenance of products or equipment.

730  Central Storage  
Definition: A room or building that is used to store equipment or materials and that serves multiple room use categories, organizational units or buildings.

750  Central Service  
Definition: A room or area that is used for the processing, preparation, testing or delivery of a complex-central or campus-wide support service.

Nonassignable Area

The following categories are included to complete the lists of room use categories for institutions that choose to include nonassignable space in the facilities room inventory.

WWW  Circulation Area  
XXX  Building Service Area  
YYY  Mechanical Area
