"What I got the most out of the program is how the classes and specifically the IMC put students in a real-world scenario, with real world problems that had to be overcome. Any school can teach how motors and circuits work, but troubleshooting and thinking outside the box to complete the task takes a lot more, and I think the IMC does just that."

Industrial Electrician, Kohler Co.

"I found the life-long relationship I built with both of my instructors and their guidance through every step in my new career, the most rewarding at Moraine Park."

Respiratory Therapist, Froedtert Hospital
